Visits of Aswan including the Temple of Philae and tour by Felucca around Elephantine, the High Dam, the Unfinished Obelisk

Phiala temple:

Built to honour the goddess Isis, this was the last temple built in the classical Egyptian style. Construction began around 690 BC, and it was one of the last outposts where the goddess was worshipped.

The High Dam:

Aswan High Dam is a rock-fill dam located at the northern border between Egypt and Sudan. The dam is fed by the River Nile and the reservoir forms Lake Nasser. Construction for the project began in 1960 and was completed in 1968. It was officially inaugurated in 1971.

The Unfinished Obelisk :

Aswan was the source of ancient Egypt's finest granite, used to make statues and embellish temples, pyramids, and obelisks. The large unfinished obelisk in the Northern Quarries has provided valuable insight into how these monuments were created, although the full construction process is still not entirely clear. Three sides

of the shaft, nearly 42m long, were completed except for the inscriptions. At 1168 tonnes, the completed obelisk would have been the single heaviest piece of stone the Egyptians ever fashioned.

12:00 lunch onboard of Felucca

Drive to Luxor and Overnight

Third Day :Day 3- Luxor- Marsa Alam

The colossi of Memnon:

Massive pair statues known as the Colossi of Memnon, rising about 18 M from the plain, are the remains of what was once the largest complex on the west bank, Built by Amenhotep the Third

The Queen Hatshepsut temple :

Rising out of the desert plain, in a series of terraces, The temple of Hatshepsut merges with sheer limestone cliffs on the eastern face of the Theban Mountain as if Nature herself had built this extraordinary monument.

Lunch in Luxor, Proceed to Visit

Luxor Temple:

Largely built by the New Kingdom Pharaoh Amenhotep the Third and completed by King Tutankhamon and the Great King Ramses the Second, The First pylon was raised by Ramses the Second and decorated with His Military Battle of Kadesh
