The Great Pyramid was built as a tomb for the fourth dynasty Egyptian pharaoh Khufu and it is estimated that it was built in the 26th century BC around 27 years. Initially standing at 146.5 metres, the Great Pyramid was the tallest man-made structure in the world for more than 3,800 years. Throughout history, the majority of the smooth white limestone casing was removed, which lowered the pyramid's height to the present 138.5 metres. What is seen today is the underlying core structure. The base was measured to be about 230.3 metres (755.6 ft) square, giving a volume of roughly 2.6 million cubic metres (92 million cubic feet), which includes an internal hillock.

If you wish to visit the burial chamber of King Cheops. Then we will visit the Pyramid of Chephren or Khafre. This is the second-tallest and second-largest of the 3 Ancient Egyptian Pyramids of Giza and the tomb of the Fourth-Dynasty pharaoh Khafre (Chephren), who ruled c. 2558?2532 BC .Then we will the Pyramid of Mykerinus. Enjoy a Panoramic View of the 3 Pyramids of Giza

We go head to visit the Valley Temple of king Chephren. While doing that you can have a closer look at the Great Sphinx .the legendary guardian that stands by the huge funeral complex with its lion body and the head of king Chephren.

After witnessing the greatness of the pyramids you will be hungry. So let's take a break for a delicious Egyptian lunch where you will lose your mind because of the most tasty food you will eat
