Necropolis is located southwest of Cairo. The Giza Plateau has been used by rulers of Old Kingdoms, The oldest known Mastaba is Mastaba v which probably dates to the reign of the 1st Dynasty, the ruler Djoser ( 2900 B.C.).

#### The Great Pyramid :

Pharaoh Khufu began the first Giza pyramid project, circa 2550 B.C. His Great Pyramid is the largest of the three in Giza and towers some 481 feet (149 meters) above the plateau. Its estimated 2.3 million stone blocks each weigh an average of 2.5 to 15 tons with a base length of more than 230 meters (950 feet) per side. The greatest difference in length among the four sides is a mere 4.4 cm (1 ¾ inch) and the base is level within 2.1 cm (less than an inch), an astonishing engineering accomplishment.

#### The Pyramid of King Chephren :

Pharaoh Khafre, also known in history by the Greek name Chephren, The third pharaoh of the 4th Dynasty during the Old Kingdom Period of Ancient Egypt around 2540 BC was the son of Khufu who built the second pyramid at Giza. His necropolis also included the [Sphinx](#), a mysterious limestone monument with the body of a lion and a pharaoh's head. The [Sphinx](#) may stand sentinel for the pharaoh's entire tomb complex.

#### The Pyramid of King Mykerinus :

The third and smallest of the great pyramids at Giza is credited to the pharaoh Menkaure (Mycerinus in Greek). It is thought to have

been completed at the end of the 26th century BC. Menkaure, like the builders of the other pyramids at Giza, ruled Egypt during the 4th Dynasty during the Old Kingdom Period of Ancient Egypt, rising to a height of 65 meters (213 feet), but the complex preserved some of the most stunning examples of sculpture to survive from all of Egyptian history.

#### **The Great Sphinx:**

The Great [Sphinx](#) of Giza is a giant 4,500-year-old limestone statue situated near the Great Pyramid in Giza, Egypt. Measuring 240 feet (93 meters) long and 66 feet (20 meters) high, the Great [Sphinx](#) is one of the world's largest monuments. It is also one of the most recognizable relics of the ancient Egyptians, though the origins and history of the colossal structure are still debated.

Lunch will be served during the Pyramids at the local restaurant in Giza.

**The Grand Egyptian Museum** is a monumental, state-of-the-art archaeological museum located on the Giza Plateau, just two kilometers from the Pyramids.

It is the largest museum in the world dedicated to a single civilization, Ancient Egypt, and is designed to house over 100,000 artifacts. Its most famous feature is the first-ever complete display of the entire King Tutankhamun collection—over 5,000 treasures—together for the first time since their discovery. Other highlights include the colossal Statue of Ramses II in the Grand Atrium and the magnificent Grand Staircase lined with large-scale royal and divine statues.
